3. Talked with Dr. Tietjen, Sheff Edwards, and Stuart Hedden regarding the [REDACTED] case. Mr. Hedden thoroughly agrees that the initiative for extending the 1 June deadline should be taken by Dr. Tietjen. There are some complications from Sheff's point of view, since he has specific instructions to report to the Director certain types of cases of which [REDACTED] seems to be one. Dr. Tietjen is writing me a memorandum which I will have on Monday or Tuesday. I will get Sheff's written comments and we will thereafter decide exactly how the case should be approached. I am sure, however, that we can, for compassionate reasons, extend the deadline a reasonable length of time.

4. I told [REDACTED] that the survey of administrative positions in covert offices should have number one priority on Bill Peel's list of jobs and that we would like a progress report each week which can be incorporated in the over-all Weekly Report for General Services.
